

Where do I live?

The children will learn to name the seven continents of the world, locate UK on a map of the world and identify the countries and capital cities of the UK. They'll learn to identify characteristics of the UK. The children will focus on Attleborough and be able to describe where they live.

Vocabulary

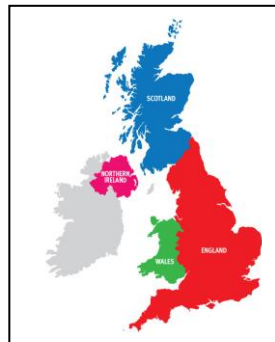

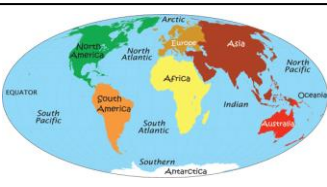

Continents, oceans, planet, earth, United Kingdom, England, Scotland, Wales, Northern Ireland, London, county, North Sea, settlement, rural, urban, Europe, Asia, Australia, Africa, Antarctica, South America, North America, Arctic, Pacific, Indian, Atlantic, Southern, Ocean.

Some key points

Attleborough

Our **settlement** is a small town in a **rural** area. There are some shops and buildings but not as many as in an **urban** city. We are surrounded by **farmland**.

- The planet we live on, Planet Earth, is split into seven areas of land- the continents.
- Between the continents are five oceans.
- We live in the United Kingdom which is made up of four countries: England, Scotland, Wales and Northern Ireland.
- Each country in the UK has their own 'national flower': the rose (England); the thistle (Scotland); the daffodil (Wales) and the shamrock (Northern Ireland).
- The nearest sea to us is the North Sea, which is where you might go for a paddle in Norfolk!

Where we live:

We live in the **United Kingdom** which is an island within the continent of **Europe**. The UK has four countries: **England, Scotland, Wales and Northern Ireland**. The capital city of England is **London**. We live in England. Each country is split up into smaller areas called counties. The county we live in is **Norfolk**.

The United Kingdom (UK):

The countries within the UK all have different characteristics, some of which they are well-known for. Here are some examples:

England: Beautiful countryside and the Royal Family!

Scotland: Lots of mountains, tartan and The Loch Ness Monster!

Wales: The highest mountain in Wales, Mount Snowdon and the Welsh language (spoken by many people in Wales).

Northern Ireland: Giant's Causeway!

The continents:

Europe
Asia
Australia
Africa
Antarctica
South America
North America

The oceans:

Arctic ocean
Pacific Ocean
Indian ocean
Atlantic Ocean
Southern Ocean
